Digital Storytelling

Program Guide

Effective communication skills are essential capabilities both at school and in the workplace. Emerging communication technologies provide students and teachers with exciting opportunities to tell their own stories in immersive ways.

Learn how to harness these tools in this interactive program. Students will apply Design Thinking to create communications for a specific audience's needs, and will use visual, 3D and multimodal texts to create their content.

• Digital Illustration & Live Media in Fresco
• Multimodal Storytelling in Spark
• Gameplay as Stoytelling

Timetable
